

# Edenred payment card

Lunch payments have never been simpler, quicker and more secure

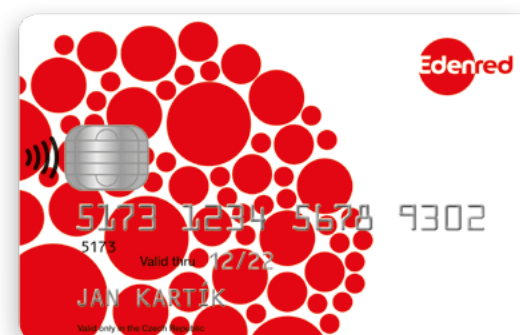

## Your Edenred payment card

is here to save your time and increase your user satisfaction.

- Edenred Card is a prepaid card by **Mastercard**.
- It combines the advantages of **meal cards** and **leisure cards**.
- During the payment, the **card recognises** the establishment and deducts the funds from the respective wallet.
- There is **no payment limit** for the **meal wallet** on Edenred Card and you can pay with it up to the amount of your meal account balance. The daily payment limit for a **leisure wallet** on the Edenred Card is **CZK 40,000**. Your limit will automatically renew at 1:00 AM so you can shop again. This limit cannot be changed and also serves as a security measure in case your card is lost.
- You have non-stop **control** over your card using an online account or a mobile application.

You can choose from a wide range of establishments in our search engine at [www.edenred.cz](http://www.edenred.cz) and/or in the **Edenred** mobile application. Your wishes and preferences matter the most to us – so do not hesitate and let us know which affiliated outlet you miss in our offer. You can do so easily in the search engine [HERE](#)

- Security: if your card is lost or stolen, you can **simply block** it and we will issue a new card to you – with the same PIN and the same balance.
- With our **mobile application**, you always know how much money you have on your card and where you can pay with it.
